

# Polycom® VideoPlus™ Continuous Presence

The world's best continuous presence

Available only on the Polycom MGC™  
VideoPlus

**Flexible use of 27 layouts** – To support your conference application

**Screen layout automatically changes** – As people join or leave the conference

**Custom borders** – To easily see each participant site

**Speaker highlights** – Easily identify the current speaker

**Site names** – Easily identify each participant site

**Revolutionary Polycom Click&View™\*** – Enhances the productivity of the conference for all participant sites

**Unsurpassed low latency** – Creates spontaneous, productive interaction among participant sites

\* Click&View is patent pending

Polycom takes Continuous Presence video conferencing to a new level of productivity for your conference and for each conference participant with three levels of service support and with revolutionary Polycom Click&View™.

Polycom continues to redefine the industry's best Continuous Presence (CP) with new capabilities and service levels making the conference experience more natural, spontaneous and productive.

Custom borders and background colors, speaker highlights and site names, together with low latency, creates an experience where the technology does not distract from the focus of the meeting. Polycom's Advanced+ Continuous Presence makes it easy to distinguish between participant sites and the current speaker. The Advanced+ technology of our Polycom MGC™ video resource module reduces latency normally experienced in Continuous Presence.

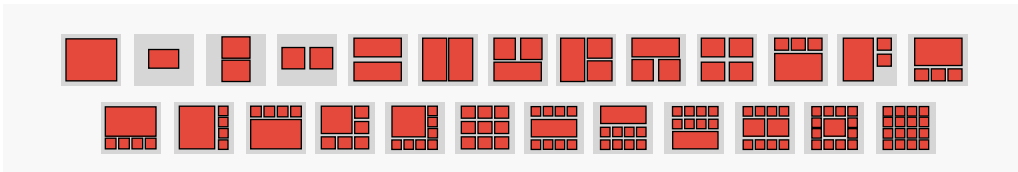

With Polycom's Click&View each participant site in a conference can use the endpoint keypad or keyboard to select their own personal Continuous Presence layout.

The world's best Continuous Presence to access the power of Polycom unified collaborative communications solutions.

With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience. Our market-leading conferencing and collaboration technologies, supported by world-class service, enable people and organizations to maximize their effectiveness and productivity. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for organizations seeking a strategic advantage in a real-time world.

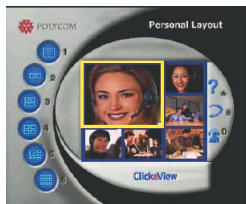

Connect. Any Way You Want.

## Polycom Click&View

Each participant in a CP conference can select their personal CP layout using their endpoint keypad or keyboard.

- Change the conference CP layout
- Change your personal CP layout
- Request operator assistance

## IP Continuous Presence

Standard on any Polycom VideoPlus™ configured to support multipoint IP video conferencing. The software based IP continuous presence includes:

- 2 way 'side-by-side' or 4 way 'quad' layouts
- Fixed and voice switched CP frames per participant site
- Change CP layouts during the conference
- 30 frames per second
- CP conference capacity up to total IP system port capacity

## Basic+ Continuous Presence

Hardware based using the Polycom MGC Advanced+ video module.

- Requires one video module port resource to support a conference that can scale up to the total system port capacity
- 27 CP layout options, every participant site sees the same layout
- Use Polycom Click&View to change the conference CP layout
- Customizable video borders, speaker highlight, background colors and site names
- Fixed and voice switched CP frames per participant site

## Advanced+ Continuous Presence

Hardware based using the Polycom MGC Advanced+ video module to deliver the highest quality and feature rich continuous presence available.

- 27 CP layout options including landscape or portrait layouts.
- Use Polycom Click&View to change the CP layout for the conference and to create a different CP layout for each conference participant
- Customizable video borders, speaker highlight, background colors and site names
- Fixed and voice switched CP frames per participant site
- Lecture mode allows the lecturer to view all other sites while the participants view the lecturer in full screen
- Automatic changes of CP layouts as the number of participants in the conference changes
- Presentation mode switches to full screen view of the current speaker while the presenter sees a CP layout of the other participants

## Video Support

- H.261, H.263
- 30 frames per second

## CP Conference Capacities

- IP Continuous Presence – total IP capacity
- Basic+ Continuous Presence – total system capacity
- Advanced+ Continuous Presence – total video module capacity

## Conference Data Rates

- 128 Kbps up to 2Mbps

## Management Interfaces

- Polycom MGC Manager
- Polycom MGC WebCommander™
- IVR/DTMF touch tone control
- Polycom Conference Suite
